Monday, October 8, 2018, 10:00 am - 11:30 am The Outlook at the Duncan Center 500 West Loockerman Street, Dover, DE 19901	Monday, October 8, 2018, 10:00 am - 11:30 am

Delaware Cancer Consortium
Delaware Cancer Registry Advisory Committee (DCRAC)
Agenda
July 9, 2018

10:00 am – 11:30 am
The Outlook at the Duncan Center
500 West Loockerman Street – Mulford Room 5th Floor
Dover, DE 19901

Conference Line Information
Dial: 302-526-5475
Meeting ID: 621561

Council Goals

Goal 1: Improve timeliness/completeness of reporting of cancer data.

Goal 2: Improve data quality to enable the routine evaluation of treatment practices and patterns against patient outcomes.

Goal 3: Increase the use of data to answer research questions.

Goal 4: Develop routes of efficient and effective communication between the Registry and its stakeholders to inform stakeholders of reporting requirements and benefits of the DCR.

Goal 5: Maintain NPCR funding through adherence to NPCR program standards for data use and data collection.

V. Sharing Time — 5 minutes

VI. Public Comment — 5 minutes

VII. Adjournment

Next, and Final Meeting in 2018:

Monday, October 8, 2018, 10:00 am - 11:30 am

Bottom Line: Web Plus	***Bottom Line: eMaRC Plus***
• Designed for hospital and non-hospital electronic reporting of cancer data. • Reporting can be accomplished two ways: -Manually entering the data through the DCR Web Plus website -File upload to the DCR Web Plus website • The reported files can be validated by both the DCR and the reporter. If the DCR notices problems with the records they can mark them and send them back to the reporter. • Can create a NAACCR formatted file that can be received into the Central Cancer Registry database (currently Rocky Mountain).	• Designed to receive electronic pathology data reports from laboratories. • Receive electronic path reports through PHINMS or from individual HL7 files. • Uses standard HL7 messaging format and converts them to NAACCR format. • Allows auto-searching of data to determine if cancer data is present. • Can view pathology reports and generate abstracts. • Created to assist with the path project.
