NEW BUSINESS

Review Final Draft of LCDP Regulations

The Committee reviewed the final draft of the LCDP regulations which were previously approved in September, but never went forth for publishing in the register of regulations. The Committee decided that the reciprocity regulations need to be updated to reflect that a certifying organization acceptable to the Board is required for licensure by reciprocity. The Committee decided to draft language to make the continuing education requirements similar across all professions regulated by the Board. The Committee plans to include the pro-ration for continuing education within the regulations.

Discussion Regarding Recommended Revisions to Regulations

Ms. Williams advised the Committee that the Division of Professional Regulation reviewed the rules and regulations and made suggestions for potential changes. The changes will help the internal application and operational process within the Division of Professional Regulation. The Committee reviewed the recommended changes and supported the changes. Included in the proposed changes will be a 5 year inactive period.

The Committee will review the final draft with the changes during their next meeting.
