Ms. Laird presented updates on several of the applicants whose conditional approvals at the March 9 and April 6, 2017, NBBF meetings required responses to conditions. Board discussion followed each:

- 1. (NHCC-12-16-Barry) New Horizons Community Center:**

Update from DOJ, April 6, 2017: New Horizons Community Center (NHCC) made changes to its original proposal, which significantly altered the proposal set forth in the original application. The recommendation from DOJ is to provide funding as outlined in the original application, and not to extend funding to the additions made since the previous meeting review.

Motion seconded by: Ms. Holland

Unanimous agreement by the board.

2. (CCDC-12-16-Nix) Canaan Community Business Center:

Canaan Community Business Center (CCDC) was asked to return before the board after DEDO provides a recommendation. Dr. Nix of CCDC is scheduled to meet with the DEDO Small Business Director on May 1, 2017. A follow up of the project will be presented at the next scheduled NBBF meeting.

NEW BUSINESS:

Initial review of the following applications by the board of directors:

1. (BGCD-12-16-Krupanski) Boys and Girls Club of Delaware:

Department of Justice (DOJ) reviewing agency: The Boys and Girls Club of Delaware proposes offering after-school programs in five different locations, spanning New Castle, Kent, and Sussex Counties. The project will work with high-risk youth after school to address crime and violence prevention, bullying prevention, offer a safe haven, tutoring assistance, dropout prevention, health and physical education, drug and alcohol prevention, and building relationships with law enforcement. DOJ recommends approval with conditions.

Program Metrics:

- ✓ 70% of youth participating will not engage in delinquent activities;
- ✓ 65% of youth participating will improve math and reading scores, to be tracked pre-program and post-program;
- ✓ 70% of youth participants will pass their current grade or graduate from school;
- ✓ 80% of youth participants will meet required school attendance rates as tracked by school records;
- ✓ 65% reduction in school-related behavioral problems, as reported by teachers/parents;
- And
- ✓ 65% of youth will acquire skills for addressing conflicts in non-aggressive ways, evidenced by pre- and post-incident report filings.

Board Discussion:

There were questions regarding the total number of locations to be served, as well as personnel and metrics tracking issues. All of these questions were resolved by Mr. Krupanski, who clarified that there is a total of five locations, that new staff would be added only if funding was available, and that metrics would be tracked by current staff.

Public Comment:

Mr. Krupanski, CEO of Boys & Girls Club of Delaware, stated that the purpose of the program is to reduce crime and improve youth development, including fostering relationships with local law enforcement, drug and alcohol prevention, and violence prevention.

Condition: Reduction of payment to \$250,000 (\$50,000 per location), with submission of the following information prior to fund disbursement – 1) the projected numbers of children to be served at each location, and 2) numbers and description (classification) of staff to be hired at each location. Also, confirm intention status of proposed project match of \$200,000.

Motion: Made by Mr. Patterson, to approve application in the amount of \$250,000, based on conditions and quantifiable metrics.

Motion seconded by: Mr. Ben Addi

Unanimous agreement by the board.

NOTE: Mr. Krupanski confirmed that a \$200,000 match would be applied toward the project.

2. (POD-12-16-Harris) Pathways of Delaware:

Department of Justice (DOJ) reviewing agency: The organization intends to promote a youth ambassador program to combat drug addiction and youth delinquency through peer and community engagement. The connection with at-risk youth has previously proven that youth are effective ambassadors for the program. Goals of the pilot program include development of marketable skills for the healthcare industry and to address community health problems. A stipend of \$75 per week over a fifty-two week period is included for participants, with a total number of 10 ambassadors providing 120 mentoring hours by April 2018. DOJ recommends approval with conditions.

- ✓ 50% increase in protection factors, as measured in the IM40 Assessment;
- And
- ✓ 100 group sessions provided over a 12-month period.

Board Discussion:

Program ambassadors are required to pass an application process, and be available for seminars and outreach to kids in school. It was noted that the applicant is taking on some risk, as the targeted youth are considered at-risk, but the screening process is sufficient for qualified applicants. There were some concerns as to whether the stipend might be a deterrent for the students to attend school, but it was determined that the amount is not be significant.

Condition: Exclusion of \$8,200 profit margin outlined in the grant request, with an opportunity for the applicant to discuss at a later meeting.

Motion: Made by Ms. Roberts, to approve application in the amount of \$81,986, based on conditions and quantifiable metrics.

Motion seconded by: Mr. Ben Addi

Unanimous agreement by the board.

3. (ICHDE-12-16-Alvarez) Interfaith Community Housing:

Department of Justice (DOJ) reviewing agency: The program will be a resident engagement program designed to cultivate and support self-identifying young adult community leaders, with an opportunity for a \$1,500 grant to lead improvement projects. The main area of focus is the West Center City/Quaker Hill section of Wilmington, in an effort to provide opportunities to work and improve the community. It would enable individuals who are not typical grant recipients to benefit from the award. DOJ recommends approval with conditions.

Program Metrics:

- ✓ Number of students enrolled;
- ✓ Number of RLDA graduates;
- ✓ Number of grants awarded to graduates;
- ✓ Total dollar amount awarded;
- ✓ Number of initiated and completed projects;
- ✓ Number of volunteers engaged;
- And
- ✓ Completion dates of graduate projects.

Board Discussion:

It was agreed that the renovation efforts would complement the work in the city's artist's district, as well as provide community ownership through combined efforts. There was a clarification that the \$1,500 grant awarded to graduates of the program would be completed through volunteers coordinated by the graduate, with the intention to create community involvement.

Condition: A correction was made to the project match amount, per a typographical error on the first page of the application, from \$38,000 to the correct amount of \$20,840. Confirm intention to provide proposed project match of \$20,840, as well as status of match funds at present.

Board Discussion:

There was some concern regarding the intended use of the funds, permanency of the living conditions for the residents, and if DSHA funding was available for the needs.

Public Comments:

Mr. Kelly, COO of YMCA Delaware, clarified that the funds would partially be used to hire more social workers. He added that residents that qualify for Section 8 Housing assistance are encouraged to pursue it, but that there are many residents who are not mentally capable to live on their own. He stated that the YMCA must request funding assistance each year in order to maintain its programs, which is the purpose of this application.

Condition: Reduction of \$2,790, half the amount allocated for the program director as outlined in the application, with all funding going toward rent subsidy, for a total of \$47,210. Confirm intention to provide proposed project match of \$65,000, and status thereof.

The question regarding the stipend included in the application was clarified to be a free membership incentive for team leaders of the program, and would not equate cash.
