

**Delaware Thoroughbred Racing Commission  
Minutes of Meeting Held On  
March 20, 2019**

The Delaware Thoroughbred Racing Commission held an Executive Session meeting on Wednesday, March 20, 2019, at 9:05 a.m., followed by Public Session at 10:05, at the Horsemen's Office, Delaware Park, 777 Delaware Park Blvd., Wilmington, DE 19804

**The following Commission members were present:**

W. Duncan Patterson, Jr., Chairman
Edward J. Stegemeier, Secretary/Commissioner
Richard A. Levine Esq., Commissioner
Henry J. Decker, Commissioner
Debra M. Killeen, Commissioner

The following individuals also were present:

Michael T. Scuse, DDA, Secretary of Agriculture
John F. Wayne, DTRC, Executive Director
Andrew Kerber, Esq., Deputy Attorney General
Frederick L. Burkhardt, DTRC, Chief Steward
Eric Coatrieux, DTRC, Safety Steward
Sarah Crane, DTRC, Inspector
William Fasy, President, Delaware Park
John E. Mooney, Executive Director of Racing, Delaware Park
Kevin DeLucia, Sr. Vice President & CFO, Racing-Administration, Delaware Park
Chris Sobocinski, Racing Information Coordinator, Delaware Park
Jeff Stinson, Security, Delaware Park
Bessie Gruwell, DTHA, Executive Director
Gary Katz, DTHA
Steve Bertrando, DHAF
Robert Colton, Delaware Jockeys' Association
Ramon Dominguez, Retired Jockey
Pete Lizarzaburu, Retired Jockey
Susan Barlow, Assistant Trainer
Lindsey Drennen, Vendor
Molly Church, DTRC, Administrative Asst. (Recording Minutes)

**1. WELCOME & CALL TO ORDER**

At approximately 9:03 A.M., Chairman Duncan Patterson called the meeting to order.

**2. EXECUTIVE SESSION**

At this time, upon a motion duly made (Decker) and seconded (Killeen), Chairman Patterson moved the meeting to Executive Session to discuss personnel matters.

### **3. PUBLIC SESSION**

Upon a motion duly made (Decker) and seconded (Killeen), the Commission moved to Public Session at 10:18 am.

### **4. APPROVAL OF MINUTES (January 16, 2019 MEETING)**

Upon a motion duly made (Levine) and seconded (Stegemeier), the minutes from the January 16, 2019 meeting were unanimously approved. Minutes from the February 22, 2019 Executive Session Commission meeting were also presented to the Commissioners. Upon a motion duly made (Levine) and seconded (Stegemeier), those minutes were also unanimously approved.

### **5. OLD BUSINESS**

#### **A. Draft Rule Proposal – Electrolytes on Race Day (Andrew Kerber)**

At this time, Mr. Andrew Kerber presented the Commissioners with a proposal to amend its Rule, 15.1.3.1.3. Rule 15.1.3.1.3 states,

“A foreign substance of accepted therapeutic value may be administered as prescribed by a Veterinarian when test levels and guidelines for its use have been established by the Association of Racing Commissioners International (ARCI). The Commission hereby adopts by reference the ARCI Controlled Therapeutic Medication Schedule, Version 2.1. If there is any inconsistency between the Commission’s regulations and the ARCI Controlled Therapeutic Medication Schedule, the provisions of the Commission’s regulations shall prevail. Androgenic-Anabolic Steroids are subject to the provisions of Rule 15.17.”

The amendment would add,

“Electrolytes may be administered to a horse within twenty four hours prior to the scheduled post time for the first race so long as they do not contain any other drug or create a positive test under the Commission’s drug testing program.”

Chairman Patterson asked Mr. John Mooney if he was comfortable with the amendment, to which Mr. Mooney replied the affirmative.

Upon a motion duly made (Killeen), and seconded (Stegemeier), the amendment to Rule 15.1.3.1.3 was approved. The vote was unanimous.

Mr. John Wayne asked if it was too late to get the amendment published this year. Mr. Kerber replied that he would try to get it published as soon as possible.

Secretary-Commissioner Stegemeier explained that he was a little uncomfortable with having this amendment published later in the meet, because this means the rules will change in the middle of the year, and this may cause some confusion. He inquired about possibly making the electrolyte rule a Delaware Park house rule. Mr. Mooney and Mr. Kevin DeLucia said they would have no problem with making the rule a house rule until it is published in the Commission rules. Chairman Patterson asked if the rule could make it into the condition book. Mr. William Fasy answered that it would be subject to legal review. Mr. Kerber explained that house rules are usually more restrictive than Commission rules. It would be a technical violation for a licensee to use electrolytes until a rule, whether it be a house rule or Commission rule, comes into effect.

Mr. Kerber said that the earliest that the rule could be in effect would be around July 11<sup>th</sup>. Chairman Patterson said that he has no problem with instituting the rule in the middle of the season because it is for the benefit of the horse. Mr. Fasy stated that Delaware Park agrees with the rule amendment, but the racetrack wants to be sure that there are no legal violations in doing so.

Commissioner Richard Levine said that, since the rule is becoming more relaxed (rather than more restrictive), this also makes it easier to implement.

## **6. NEW BUSINESS**

At this time, before moving on to New Business, Chairman Patterson announced that in February, the Commission interviewed applicants for the position of Associate Steward and just before the meeting today, they had also interviewed an applicant for the position of Safety Steward. Chairman Patterson asked the Commission for a motion to approve Tony Langford for the position of Associate Steward. Upon a motion duly made (Levine) and seconded (Decker), Mr. Langford was approved for this position. The vote was unanimous.

Mr. Langford has been a long-time Steward in Texas. The Commissioners were very impressed by him during his interview, and his duties will commence on the first week of April.

Chairman Patterson then asked the Commission for a motion to approve Eric Coatrieux for the position of Safety Steward. Upon a motion duly made (Killeen), and seconded (Stegemeier), Mr. Coatrieux was approved for this position.

Mr. Coatrieux trained in Canada for a number of years and has been working most recently as a placing judge in a racing office in Maryland. The Commission is looking forward to working with Mr. Coatrieux, whose duties will commence in mid-April.

### **A. Expansion of Simulcasting Dates for 2019 Racing Season**

At this time, Chairman Patterson presented a letter to the Commissioners from the Delaware Racing Association written by Kevin DeLucia. The Association had previously requested and received approval for 363 days of simulcasting from January 1 to December 31, 2019. Delaware Park is now amending its request for approval to simulcast 364 days. Christmas is the only day that Delaware Park is scheduled to be closed. Simulcasting will now be available on Easter Sunday.

Mr. DeLucia explained that in June 2018, legislation was passed related to tax relief allowing the casino to be open on Easter.

Upon a motion duly made (Stegemeier), and seconded, (Killeen), the Commission unanimously approved the Racing Association's amended request.

### **B. New Padded Riding Crop Introduction by Ramon Dominguez**

At this time, Chairman Patterson introduced retired Hall of Fame jockey Ramon Dominguez to the Commission. Chairman Patterson explained that about 20 years ago, the National Steeplechase Association introduced a new padded riding crop from England for use in the United States steeplechase circuit. Chairman Patterson suggested thoroughbred jockeys Ramon Dominguez and Jeremy Rose use the new crop and give their input. The consensus was that these crops were longer than the jockeys were used to and the balance was off. After a few

more years, a new crop was developed that met balance and padding needs. ARCI approved the new crop a number of years ago. Mr. Dominguez explained that Mr. Wayne was also instrumental in bringing the new padded riding crop to Delaware Park in 2008 or 2009.

However, due to the soft material that the crops were made of, the dirt and water was damaging to the crop. He also explained that these crops had a flat surface, giving the jockeys less control about which way the crop would hit the horse.

These factors inspired Mr. Dominguez to create a modified version of the crop. He used a design similar to an inner tube from a speed bike, which is cylindrical and also waterproof. In 2011, he got a patent on his new idea. Now he is ready to have many of these crops go to market. The new crop is called GT360, GT meaning "Gentle Touch". He discussed the high shock absorption of the materials. The crop does make a noise which incentivizes the horse. The crop has been utilized in some tracks already, such as Gulfstream and Aqueduct. Feedback was very positive from jockeys and veterinarians.

Chairman Patterson asked if Mr. Dominguez was planning to attend the next ARCI meeting. Mr. Dominguez answered that he had already talked to Ed Martin, president of ARCI, and planned to attend the August meeting in Saratoga.

Chairman Patterson asked about the differences between the older crop and Mr. Dominguez's new crop. Mr. Dominguez answered that the new crop does fit the same current criteria, but the cylindrical model with no edge is safer for the horse and jockey. Mr. Dominguez's ultimate goal is to have the crop be mandatory at all racetracks at which it is adopted.

Chairman Patterson commented about Santa Anita's eradication of the riding crop completely due to the incident of 22 horse deaths in a short amount of time. He asked Mr. Dominguez for his opinion on this. Mr. Dominguez explained that he flew to Santa Anita before the incident, and the Commissioner expressed that they wanted to implement Mr. Dominguez's new crop as soon as possible. However, due to current events at Santa Anita, they decided to remove the riding crop from use altogether. He believes Santa Anita went to an extreme, which is understandable because of the importance of the situation, and he believes it was to please the public and improve their perception of racing. Mr. Dominguez believes that the public's perception can't necessarily always be changed. The public holds onto their opinion, which is sometimes very different from reality. He believes that the most important thing to help the industry evolve is education of the public.

Mr. Dominguez does not think it is a good idea to remove the crop altogether, because every horse is different and some horses respond well to the crop. It is needed for encouragement and safety reasons.

Chairman Patterson expressed that many people who are unfamiliar with racing perceive the crop as being cruel. He believes that the industry could do a better job at educating the public. Mr. Dominguez agreed.

Mr. Dominguez inquired what the process would be in order to have his crop used at the racetrack. Chairman Patterson said that the Commission adopted the ARCI rules regarding the crop. The process to approve Mr. Dominguez's crop would take about 3 months.

Commissioner-Secretary Stegemeier expressed concerns with making Mr. Dominguez's crop mandatory at the racetrack. He said the Commission does not want to be locked into one manufacturer. Mr. Wayne said that the current rule was fairly general, with the only stipulations being that the crop must be 30 inches and 1 pound or less.

Chairman Patterson asked Mr. Dominguez how much the crops cost. Mr. Dominguez answered that at this time, they run for about \$65.00-\$85.00. Some crops cost as much as \$120.00. The GT360 has a fiberglass rod that will last longer than average crops on the market.

Chairman Patterson then inquired about the balance of the crop. Mr. Dominguez answered that the balance is outstanding, and feels very well balanced when riding.

Ms. Bessie Gruwell asked Mr. Dominguez if people are currently riding with the new crops. Mr. Dominguez answered that jockeys at Aqueduct have rode with them and were able to give him a lot of positive feedback. The crops were in a trial phase and a small modification was made (tapering the grip).

Chairman Patterson asked if Mr. Dominguez asked for the Stewards' permission in Florida and New York for jockeys to use the new crop. Mr. Dominguez said that he did speak with the Stewards and the rules permitted it.

Chairman Patterson then asked if Mr. Dominguez had any thoughts about the crop's introduction to the public. Mr. Dominguez answered that he is currently on the forefront of this. The public needs educating. Some organizations vilify racing because they have their own agenda. The industry needs to respond by unifying in a consistent message. However, it is also important to remember that some of the public are not willing to change their mind, no matter what efforts are made.

Commissioner Debra Killeen agreed, and asked Mr. Dominguez about the weight of the crop. Mr. Dominguez replied that they are about 1 pound.

Mr. Dominguez also discussed the use of the word "riding crop" instead of "whip". "Riding crop" sounds more pleasing, even though they mean the same thing. "Whip" has a negative connotation. Ms. Gruwell compared this to the use of the words "drugs" and "medication". Commissioner Richard Levine said that in the current political environment, Mr. Dominguez will probably have more success calling it a "crop" instead of a "whip".

Mr. Kerber noted that the Commission rules use the word "whip". Rule 10.9.3 requires that the whip be 1 pound, 30 inches, and with one popper. The GT360 meets all of these requirements. Chairman Patterson asked Mr. Kerber about the process of changing "whip" to "crop" in the Commission rules. Mr. Kerber answered that since this is a technical change, and not a change to substance, it doesn't need the typical administrative process.

At this time, Commissioner Henry Decker made a motion to change the word "whip" to the word "crop" in the Commission rules. Commissioner Levine seconded. The vote was unanimous. Mr. Kerber said that he will get this rule to the registrar for May 1<sup>st</sup> publication.

Commissioner Levine asked the rest of the Commission if they would like to make Mr. Dominguez's crop mandatory or optional. Commissioner Stegemeier said that he doesn't believe that the Commission can take the position of making the crops mandatory.

Mr. Wayne explained that in the past, several riding crops were purchased for the riders' use and placed in the jockeys' room. Commissioner Decker agreed that some of Mr. Dominguez's crops could be placed in the jockeys' room and made available for use.

Mr. Dominguez is currently in communications with Keeneland about the use of his crop there. Keeneland says that they will approve the use of the crop as long as Mr. Dominguez gets approval from the Jockeys' Guild.

Commissioner Levine noted that all equipment has to be reviewed and approved by the Stewards as well.

Mr. Kerber suggested that perhaps the Commission should change the rule about crops to add that the “popper should have no edges”. Commissioner Decker said that it seems unfair to write a new rule right before the season in regards to what kind of crop a jockey may or may not use. Commissioner Decker said that he is curious to hear what ARCI will have to say about it.

Mr. Dominguez suggested that Delaware Park do trial runs with his crop. Similar trials were run during the week of the Pegasus in Gulfstream. Mr. Dominguez spoke with Mr. Martin of ARCI, who suggested that Mr. Dominguez get a petition made and signed by jockeys in support of the crop. He emphasized that the most important factor is support from the jockeys. Commissioner Stegemeier asked if Delaware was allowed to do a trial run for certain designated races.

Chairman Patterson asked about how Mr. Robert Colton felt about the crops. Mr. Colton drafted the original ARCI rule with the current crops. Riders had a different attitude about them. Mr. Colton said he would be willing to encourage riders to use the new crop.

Mr. John Mooney asked why a rule change would be necessary if Mr. Dominguez’s crop fits all of the qualifications in the rule (1 lb., 30 in., padded crop). Commissioner Decker said that a rule change would only be necessary if the Commission agrees to make the “popper that has no edges” stipulation mandatory.

Mr. William Fasy said that he believes this issue is great for the Commission’s public relations. However, Delaware Park has the lowest number of horses in the Mid Atlantic industry. He likes the idea, but worries if it will drive much needed business away.

Mr. Dominguez replied that jockeys can certainly be stubborn, but if the rule is mandatory, they will have no other choice but to use the new crop. He explained that they will have to either ride with a more positive crop, or ride with nothing at all. The industry needs consistent, level playing fields. One way to accomplish this is with designated races in which jockeys will exclusively use Mr. Dominguez’s crop. Mr. Fasy said that he would be curious to know how some of the highest earning jockeys feel about the crop. When they come to town for the bigger Delaware Races, such as the Oaks or the Handicap, will they be willing to use this crop?

Mr. Fasy asked that, if the crop is what it is presented to be, why isn’t the Jockeys’ Guild requiring it to be used? ARCI, the Jockeys’ Guild, and Horsemen’s Associations should all be behind it.

Mr. Dominguez said that the crops are just starting up. He is connecting with leaders in the industry to gain support. However, it is up to the racetracks to adopt the crop. The industry groups can be very divided, also.

Mr. Fasy asked the Horsemen about their stance. Mr. Mooney said that the industry needs a new public relations campaign. Delaware has been using the cushioned crop for almost ten years and PETA is not understanding how it really works.

Commissioner Decker said that the Commission cannot make a new rule to mandate the crops until at least August of this year. He asked how the racetrack felt about having designated days and races in which jockeys can race with the new crops. Ms. Gruwell suggested that the Stewards could pick the races.

Mr. Mooney believes that riders should use whichever crop they prefer. He thinks jockeys should have experience with a crop before they run a race with it. He wants to keep the playing field level.

Chairman Patterson said that the rule will probably be instituted, but it may take 1-2 years. Change can be slow, but it will happen. The Commission should see how races fill this year first. Mr. Wayne agreed and said that they will have some of Mr. Dominguez's crops available for riders to use.

Mr. Fasy informed Mr. Dominguez that the NTRA is the biggest lobbying group and he suggested that Mr. Dominguez try to schedule a meeting with them.

Mr. Wayne suggested that Mr. Dominguez present the Commission with a letter of recommendation from the Jockeys' Guild. Mr. Dominguez said he would.

Chairman Patterson asked if any manufacturer could make the crop. Mr. Dominguez said that as of now, no other manufacturer can make the crop, but he hopes to change that. He is meeting one of the country's biggest crop manufacturers at the ARCI meeting and hopes to discuss that with him.

At this time, the Commission thanked Mr. Dominguez for his time and he thanked them for theirs as well.

## 7. Report from DTRC Executive Director

### A. Summary of Activities Report for February

At this time, Mr. Wayne presented his Summary of Activities report for February 2019.

	<u>Year-To-Date</u>
Number of Persons Fingerprinted	22
Fingerprint Fees Collected	\$1,735.00
DTRC Licenses Issued	891
Fines & Appeal Fees Collected	\$4,480.00
License Fees Collected	\$22,565.00

2 National Surveys from ARCI  
3 Horsemen Contacts  
1 Video Lottery Enforcement Unit (VLEU) Contacts  
6 Contacts from other Commissions  
3 Police & Law Enforcement Contacts  
5 ROAP Contacts  
2 Review of National Racing Compact Application  
12 Total National Racing Compact Applications Received (Delaware)  
3 Industry Contacts  
3 Racing Association Contacts  
3 Media Contacts  
1 FOIA Request  
3 Public Contacts

Mr. Wayne explained that he and Inspector Sarah Crane attended the ORI meeting at Gulfstream Park during the month of February. At the meeting, Dr. Mays from Texas A & M discussed chain

of custody. The case in which split samples were stolen from a secure facility in Louisiana was also discussed. Mr. Wayne has been in contact with Glenn Wright, who is the States' contact for surveillance and security devices to prevent this type of situation in Delaware. They are in the process of placing a trigger on the evidence locker that alerts Mrs. Crane and Mr. Wayne when it is opened.

Mr. Wayne also attended the TRA 2020 Meeting, where wagering security, cancellation times, and wagering anomalies were discussed.

Chairman Patterson asked Mrs. Crane about a Career Day that she partook in at Smyrna High School. Mrs. Crane was there to represent the racing industry and teach high school students about the job opportunities involved in racing, as well as to inform them about the importance of horse racing to agriculture. She also discussed the Delaware Certified Thoroughbred Program with the students. Many students did not know how many people are employed by racetracks, farms, vendors, veterinary practices, and Commissions. Mrs. Gruwell expressed interest in also speaking to high schoolers and other young adults about the need for workers in the industry.

## **8. REPORT FROM THOROUGHBRED HORSEMEN'S ASSOCIATION**

### **A. Delaware Certified Thoroughbred Program Report**

At this time, Mrs. Gruwell presented the Delaware Certified Thoroughbred Program Report. The Program's number of horses for 2018 surpassed the previous year. 2018 had the highest number of Delaware Certified horses ever, since the inception of the Program. 302 horses came into the program versus 240 from the previous year. The Program has captured a lot of interest from horsemen.

The Program now has a beginning balance of \$1,352,686.13. In 2018, 292 certified horses started 694 times, with 104 1sts, 100 2nds, and 119 3rds. Mrs. Gruwell is doing a presentation later in the day at Legislative Hall about all the jobs and business that the racing industry brings in to the state.

## **9. PUBLIC COMMENT**

There was no public comment at this time.

## **10. EXECUTIVE SESSION**

Upon a motion duly made (Killeen) and seconded (Decker), public session was adjourned at 11:44 am and was moved to executive session in the Administrative Building's Conference Room at approximately 11:57 am to discuss personnel matters.

## **11. ADJOURNMENT**

Upon a motion duly made (Killeen) and seconded (Decker), public session was moved back to order at 12:45 pm and adjourned at approximately 12:45 pm.
