Correspondences

The Board was presented with the ACBA Newsletter for their information.

The Board was presented Press Release from DHSS regarding Radiology machines. The Board asked that the Division announce this to Chiropractors through either a mass email or put on website.

The Board received an inquiry from Palmer College regarding preceptorship without adjusting and another inquiry from the American Chiropractic Board of Sports Physicians regarding pre-participation examinations. A motion was made by Dr. Cowan, seconded by Ms. Kaza, to send notification to them that Chiropractors are limited to practice only what they have been taught in Chiropractic school and continuing education and to see section 7.1 in rules and regulations; however, there us nothing in the licensing law that either allows or denies these scopes of practice as long as person does not call themselves a doctor/intern without license. The motion unanimously carried.
